**Illinois Commerce Commission**  
**Docket 01-0662**  
**Staff Data Request AOO 1.0**

**Request:**

The following questions address the state collocation equipment requirements mandated by the Commission in Docket No. 01-0614. The Commission's Order in Phase 1 of this docket (Paragraph 289) directed that SBCI's compliance with the 01-0614 Order will be monitored and assessed in the current Phase 2 of this proceeding. Succinctly, as provided in SBCI's relevant tariff, the requirements state that CLECs "may physically or virtually collocate any type of equipment for interconnection with SBCI as required by 47USC§251(c)(2) or access to the SBCI's unbundled network elements as required by 47USC§251(c)(3) and the rules and regulations of the FCC, IL PUA and the rules and regulations of the ICC." (ILL.C.C No. 20, Part 23, Section 4).

1. How many collocation projects has SBCI completed in compliance with the Commission Order in Docket 01-0614, dating from the issuance of that Order on June 11, 2002?
2. Please provide a breakdown of each type of collocation projects including, but not limited to, information regarding the names of the CLECs, the date of the collocation application and the date of completion of each collocation project, on month-by-month basis.
3. State how many collocation project applications SBCI rejected within the same timeframe? Please identify the carrier or carriers whose applications were rejected, the date the applications were made, the date SBCI notified the requesting carrier(s) of the rejection, and describe the basis for the rejection(s).

**Response:**

1. SBC Illinois has completed 108 collocation projects from July 1, 2002 through January 24, 2003.
2. The attached worksheet details the type of collocation, carrier etc. by month. The following are descriptions of the columns on the worksheet.

Column	Description
A	= ACNA
B	= Illinois
C	= CLEC Name
D	= Floor space type (caged, cageless, virtual)
E	= N (New arrangement) or A (Augment)
F	= Case # This represents the date the application was received and may not be reflective of the date the applicable non-recurring charges payments were received (which is the start date for the job).
G	= Occupancy Date. This is the date that the job was completed and the CLEC was notified of the completion.

3. SBC Illinois has not rejected any collocation application projects since June 11, 2002.

Person Responsible: Scott Alexander
